

## **SCHOOL OF ENGINEERING & TECHNOLOGY**

### **COURSE FILE**

Program: Mechanical Engineering  
Course Code: 1234567  
Course Title: Seminar/Case Studies  
Module Semester: 5th  
Session: 2024-25

**Index**

| <b>S. No.</b> | <b>Topics</b>   |
|---------------|---|
| <b>1.</b>     | Course Details: Course-Code; Course Title; Semester/Term/Module; Year   |
| <b>2.</b>     | Vision, Mission of the University   |
| <b>3.</b>     | Graduate Attributes of the BMU Students   |
| <b>4.</b>     | Vision, Mission of the School   |
| <b>5.</b>     | PEOs and POs & PSOs of the Program  |
| <b>6</b>      | Course Description and its objectives   |
| <b>7</b>      | Course Outcomes and CO-PO Mapping   |
| <b>8</b>      | Course Syllabus: (including Course Content with Module-wise teaching hours allocated; Readings, Activities, Teaching Strategy, and Module mapped to COs, Text Book(s), Reference Books, Other learning resources) |
| <b>9</b>      | Detailed Session wise Plan  |
| <b>10</b>     | Weekly Timetable  |
| <b>11</b>     | Registered Students List  |
| <b>12</b>     | Details of Internal Assessments; weightages, due dates, mapping to CO   |
| <b>13</b>     | Mid Semester Question papers with sample solutions  |
| <b>14</b>     | Sample Evaluated Internal Submissions and Identification of weak students.  |
| <b>15</b>     | Reflections from the Mid-term semester feedback received, and interventions made to enhance the student learning and continuous improvement in teaching and learning strategies.                                  |

|           |   |
|-----------|---|
| <b>16</b> | Interventions made for slow performers and advanced learners, highlighting initiatives taken for student improvements (retest, resubmissions etc.)  |
| <b>17</b> | End Semester Question papers with sample solutions  |
| <b>18</b> | Detail of Marks in all components up to the End Semester  |
| <b>19</b> | Attendance Report   |
| <b>20</b> | Final record of Results (including the grades)  |
| <b>21</b> | Analyzing Direct Feedback received on Course Outcomes   |
| <b>22</b> | CO Attainment Measurement Analysis  |
| <b>23</b> | Interventions made for slow performers and advanced learners, highlighting initiatives taken for student improvements (retest, resubmissions etc.)  |
| <b>24</b> | End Semester Question papers with sample solutions  |
| <b>25</b> | Feedback (class committee or otherwise) and corrective actions (if any)   |
| <b>26</b> | Faculty Course Review (if any, like Use of Innovative Pedagogies; Technology; Experiential Learning; Integration with the Vision and Mission of the University; Feedback; Course Outcome attainment for the next run of the course) |
| <b>27</b> | Any other additional information  |

## 1. Course Details

- Course Code: 1234567
- Course Title: Seminar/Case Studies
- **Module/Semester: 5th**
- Session: 2024-25

## 2. Vision, Mission of the University

### **Vision**

BML Munjal University seeks to nurture ethical leaders who are skilled, knowledgeable and have the life skills required for leading their organizations to success. The university shall seek the advancement and dissemination of practically oriented knowledge benchmarked with the best global standards.

### **Mission**

BML Munjal University aims to be a leading university for the quality and impact of its teaching, research and linkages with major stakeholders. The focus of the university is to find creative solutions to problems through application of knowledge. The university aims to create a talented community of students and faculty who excel in teaching, learning and research, in a creative and stimulating environment. The university will collaborate with other institutions for development of science, technology and arts in the global context.

### 3. Graduate Attributes

- Acquire and apply practical understanding of discipline knowledge.
- Demonstrate a sense of ethics and display excellence in both personal and professional life.
- Exhibit problem solving, critical thinking skills and investigative capability to address real world problems.
- Manifest leadership qualities and work effectively in teams across globally diverse environments.
- Be a lifelong learner with an entrepreneurial mindset to innovate in the constantly changing global scenario.
- Possess a strong sense of inquiry and design innovative solutions for positive societal impact.
- Be effective communicators and possess an empathetic outlook.

## 4. Vision, Mission of the School

### **Vision of School:**

To be amongst the leading engineering schools of the country recognized globally for excellence in teaching and research with focus on experiential learning, innovation and entrepreneurship.

### **Mission of School:**

- \* Providing high-quality learning experience to our students, preparing them to be global leaders, and contributing to the development of society through research, innovation, and entrepreneurship.
- \* Creating an inclusive and diverse learning environment that fosters creativity, critical thinking, and ethical values.
- \* Collaborating with industry, government, and other institutions to address complex societal challenges and promote sustainable development.

## 5. PEOs and POs & PSOs of the Program

### Program Educational Objectives (PEO):

PEO 1: Analyze the mechanical systems with design engineering, thermal engineering, manufacturing and allied engineering concepts by applying mathematics and sciences.

PEO 2: Demonstrate multi-disciplinary knowledge to analyze, interpret and create solutions to the real-life mechanical engineering problems.

PEO 3: Embrace capability to expand horizons beyond engineering for creativity, innovation and entrepreneurship.

PEO 4: Imbibe ethics and professionalism to act responsibly towards social and environmental issues with a focus on welfare of humanity.

### Program Outcomes (PO):

PO1: Apply the knowledge of mathematics, science, and engineering fundamentals to solve complex problems in the different mechanical engineering fields.

PO2: Identify, formulate, review, and analyse complex engineering problems by using appropriate mathematical and scientific methods, tools and techniques to evaluate solutions and reach substantiated conclusions by using the domain knowledge of mechanical engineering.

PO3: Design appropriate mechanical systems and prototypes through analysis of various components by working within the constraints which may include parameters encompassing social, economic, environmental, health and safety, manufacturability and sustainability components.

PO4: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions related to mechanical engineering problems.

PO5: Apply appropriate techniques and tools to solve complex mechanical engineering problems by effective usage of IT resources with an understanding of the limitations.

PO6: Apply contextual knowledge and appropriate reasoning to assess societal, safety, legal, and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7: Understand the impact of the mechanical engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8: Apply ethical principles and commit to professional ethics and responsibilities and norms of professional engineering practice.

PO9: Function effectively as a reliable and responsible individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communicate effectively on complex engineering activities specifically with the vast engineering community and in general with the society at large and should be able to comprehend and write effective reports and design documentation, make effective presentations using various tools, and give out and receive clear instructions.

PO11: Demonstrate knowledge and understanding of the mechanical engineering area as well as in all interdisciplinary engineering fields and should be able to effectively apply management principles to

manage large-scale projects.

PO12: Recognize the need for and importance of learning advanced technologies and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change through both online and offline modes.

Program Specific Outcomes (PSO):

PSO1: Demonstrate mechanical engineering knowledge to understand, design, apply and solve engineering problems related to the Automobile sector.

PSO2: Analyse and design manufacturing automation, robotics, and mechatronic systems within realistic constraints.

## 6. Course Description and its objectives

The main objective of this course is to introduce students to different data structures and illustrate their effective use in solving technical and logical problems. The course comprehensively explores different problem-solving techniques and skills. Proficiency in problem-solving skills is a fundamental expectation for any competent developer, as these concepts are commonly assessed by reputable companies during the screening process for software developer positions. The primary emphasis will be on achieving a deep understanding of data structures, their implementation, practical applications through problem-solving scenarios, exploring various programming paradigms, algorithm analysis, and the practical application of different data structures and algorithms. This course explores the fundamental workings of algorithms and data structures, which lie at its core essence.

## 7. Course Outcomes and CO-PO Mapping

### Course Outcomes:

CO1:

CO2:

CO3:

### CO/PO Mapping:

| Course Outcomes (CO) | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 | PSO1 | PSO2 | PSO3 | PSO4 |
|----------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|------|------|------|------|------|------|
| CO1                  |     |     | 2   | 2   | 2   |     |     |     |     |      |      |      |      |      |      |      |
| CO2                  |     |     |     |     |     |     |     |     |     |      |      |      |      |      |      |      |
| CO3                  |     | 3   | 3   | 2   |     |     |     |     |     |      |      |      |      |      |      |      |

## 8. Course Syllabus

| Sr. No. | Content   | CO | Sessions |
|---------|---|----|----------|
| 1       | Linear Search, Maximum in an Array, Sorting(Selection, Bubble and Insertion), Binary search, Kadane's Algo- $O(N)$ , Merge two sorted arrays, Rotate Array anti clock wise by k times, Unique Number-1, and tell about bitwise operators, Basics of strings, String methods, String builder, Mutable and Immutable concepts, 2D Arrays: Wave Print, Spiral Print, and Transpose   | 1  | 1        |
| 2       | Recursion: Factorial, Fibonacci, isArraySorted, SumofArray, Print Numbers “ 1) Increasing Order 2) Decreasing Order, MergeSort, Subsequence, Rat in Maze, N_Stairs, Subset Sum  | 2  | 1        |
| 3       | Stack: stack implementation, Queue implementation, LinkedList implementation(Add and Delete), Mid (Cycle detection hints), Reverse LinkedList, Merge two Sorted LinkedList, Intersection of two LinkedList, Binary Tree implementation and traversal of binary tree(PreOrder, InOrder and PostOrder), Diameter- $O(N^2)$ and $O(N)$ height, count number of node, Level-Order, Create Tree using Pre and Inorder, Create Tree using level-order, Binary Search Tree implementation, Addition and Deletion | 2  | 1        |
| 4       | BST to LinkedList, Balanced binary Tree, Valid BST, priority queue Collections, Kth Smallest, Meeting Room-2, Merge k Sorted List, Map and Set Collections (HashMap TreeMap and LinkedHashMap), SubArray using Map related Question   | 3  | 1        |
| 5       | Dynamic Programming: Fib, min Steps to one, coin Changes, LCS, LIS, knapsack, Edit Distance, Graph basic, BFS, DFS, Dijkstra, MST(Prims), bipartite   | 1  | 1        |

## 9. Learning Resources

### Text Books:

- ✓ Cracking the Coding Interview author( Gayle Laakmann McDowell )
- ✓ Coding Interview Questions author(Narasimha Karumanchi)

### Reference Links:

- [Data Structures and Algorithms Specialization](#)
- [NPTEL Data Structures And Algorithms, IIT Delhi](#)

## 10. Weekly Timetable

| Time        | Monday                         | Tuesday                        | Wednesday                      | Thursday                       | Friday                         |
|-------------|--------------------------------|--------------------------------|--------------------------------|--------------------------------|--------------------------------|
| 9:15-10:10  | Seminar/Case Studies (1234567) |                                |                                |                                |                                |
| 10:15-11:10 |                                | Seminar/Case Studies (1234567) |                                |                                |                                |
| 11:15-12:10 |                                |                                | Seminar/Case Studies (1234567) |                                |                                |
| 12:15-13:10 |                                |                                |                                | Seminar/Case Studies (1234567) |                                |
| 13:15-14:10 |                                |                                |                                |                                | Seminar/Case Studies (1234567) |
| 14:15-15:10 |                                |                                |                                | Seminar/Case Studies (1234567) |                                |
| 15:15-16:10 |                                |                                | Seminar/Case Studies (1234567) |                                |                                |
| 16:15-17:10 |                                | Seminar/Case Studies (1234567) |                                |                                |                                |
| 17:15-18:10 | Seminar/Case Studies (1234567) |                                |                                |                                |                                |

## 11. Registered Students List

## Course Outcome Attainment

### 13. Student Learning Categories

#### Learner Categories Summary

| Learner Category  | Number of Students |
|-------------------|--------------------|
| Advanced Learners | 5                  |
| Medium Learners   | 4                  |
| Slow Learners     | 1                  |

#### Student Learning Classification

| Student Name       | Category         | CO1 | CO2 | CO3 |
|--------------------|------------------|-----|-----|-----|
| Aditya Goel        | Advanced Learner | 3   | 3   | 3   |
| Anisha Chhanpadia  | Advanced Learner | 3   | 3   | 3   |
| Dhruv Singla       | Advanced Learner | 3   | 3   | 3   |
| Harsh Gupta        | Advanced Learner | 3   | 3   | 3   |
| Keshav Gupta       | Advanced Learner | 3   | 3   | 3   |
| Dorjee Phinjo Sona | Medium Learner   | 3   | 3   | 1   |
| Eshaan Chandra     | Medium Learner   | 3   | 3   | 1   |
| Hardik Rustagi     | Medium Learner   | 3   | 3   | 1   |
| Jiya Gera          | Medium Learner   | 3   | 1   | 1   |
| EENA CHAUDHARY     | Slow Learner     | 1   | 1   | 1   |

## 14. Actions taken for weak students

- we beat them

## 15. Student Feedback

### **Quantitative Feedback:**

Average Rating: 4.37/5

### **Qualitative Feedback:**

course was good

## 16. Faculty Course Review

lol this field never was suppose to even work how did it work good question!!!!
