1	230C2070001	VIVEK	vivek.yadav.23ece@bmu.edu.in	Everyday elegance, forever yours	Discover timeless elegance with LustreLane — a curated collection of handcrafted jewelry designed to celebrate every moment. Shop rings, necklaces, and more with ease and sparkle.
2	230C2070004	HARSH YADAV	harsh.yadav.23ece@bmu.edu.in		
3	230C2070007	KARMANYA BHALLA	karmanya.bhalla.23ece@bmu.edu.in		
4	230C2070005	AKSHAT RAWAT	akshat.rawat.23ece@bmu.edu.in	Books Tailored to Your Taste	Develop a website that helps users discover books based on their reading preferences and genres they love. Users can select genres or interests from a checklist, and the site will instantly generate a list of matching books. The platform includes a personalized bookshelf page to help users track current, past, and wishlist reads, a reading planner to set goals and manage reading time, and a favorites section to bookmark top picks.
5	230C2070002	SAMARTH SHARMA	samarth.sharma.23ece@bmu.edu.in		
6	230C2070003	SHUBHAM PATEL	shubham.patel.23ece@bmu.edu.in		
7	230C2070012	ABHINAV TRIPATHI	abhinav.tripathi.23ece@bmu.edu.in	HomeChef Genie – *Tell Us What You Have. We'll Tell You What to Cook.*	Develop a website that helps users discover recipes based on the ingredients they already have at home. Users can select ingredients from a checklist, and the site will instantly generate a list of matching recipes. The platform includes a personalized pantry page to help users track available ingredients, a diet planner to create custom meal plans, and a favorites section to bookmark recipes.
8	230C2070006	SHRUTI NEGI	shruti.negi.23ece@bmu.edu.in	Wellness Alchemy Hub	Wellness Alchemy Hub's website provides a seamless platform for anyone seeking holistic health and advanced medical care. The intuitive design highlights the variety of services available, including personalized treatments, wellness programs, and expert medical consultations.

9	230C2070008	DIKSHA BALODI	diksha.balodi.23ece@bmu.edu.in	ShopSphere	Develop a website that helps users discover and shop products across categories based on their preferences and needs. Users can browse or filter items using a checklist of categories, brands, and price ranges, and the site will instantly display relevant products. The platform includes a personalized cart and wishlist to track shopping activity, a deals planner to notify users about discounts, and a favorites section to bookmark preferred products.
